- 25X1 1. [ ] Comment. Possibly, troop shipments.
2. [ ] Comment. Probably, troop shipments.
3. [ ] Comment. Omitting the trains with undetermined cargo and those which probably carried troops, the total number of shipments amounts to 747 carloads. This volume corresponds to the average volume of loadings handled in the Erfurt regional railroad district per month. [ ] There were no extraordinary shipments or routing of traffic.
- 25X1 4. [ ] Comment. The train with the [ ] observed on 2 August carried elements of the 68th Gds Hv Tank SP Regt, [ ] of the 20th Gds Mecz Div. After the train departed from Jena on 4 August it carried elements of the 65th Tank Tng Bn (US), [ ] of the 20th Gds Mecz Div and the other trains carried unidentified tank components of the XXVIII and XXIX Gds Mtz Rifle Corps. All units were transported to Letzling Heath for short-term firing practices that would last eight days. Source did not cover the return of the troops.
- 25X1 5. [ ] Comment. Probably, departure of old motor vehicles.
6. [ ] Comment. The train from Crawlinkel to Altengrabow on 30 August carried elements of the 24th RL Bn (US), [ ] of the 20th Gds Mecz Div. Another source reported the train to have run under [ ]
- 25X1 [ ] The train from Emleben to Altengrabow on 6 August was probably observed in Altengrabow when it was unloaded on 7 August. Among the materiel unloaded were rocket launchers and motor vehicles of the 316th RL Regt (US) of the XXVIII Gds Mtz Rifle Corps, which, in the summer of 1952, had been stored in Camp Petriroda near Emleben. [ ] On 11 August, elements of the 13th AAA Div were probably transferred from Weimar to Altengrabow. The identity of the units on the shipments observed at the railroad stations of Mechterstaedt, Eisenach and Ohrdruf, going to Altengrabow, could not be determined. However, it is assumed that they were artillery units of the two corps of the Eighth Gds Army.
- 25X1 7. [ ] Comment. An airfield is under construction near Grosswudicke. The sheet metal from Eisenach were runway mats manufactured by the BMW firm in Eisenach.
- 25X1 8. [ ] Comment. [ ] the 10th Gds RL Regt of the IX Mtz Rifle Corps in Schwerin; it confirms the regiment there until 23 August. The presence of elements of the regiment at the Kindel troop training ground could not be determined.
- 25X1 9. [ ] Comment. At the end of August, an exchange of units of the XXIX Gds Mtz Rifle Corps took place between the troop training ground of Kindel and Lossa. It appears that equipment of the 94th RL Regt (US) was transferred from the Kindel troop training grounds to Leipzig-Schoenau via the Rueckmarsdorf railroad station and equipment of the 76th Arty Brig (US) was transferred from there to Merseburg during the same period.
- 25X1 10. [ ] Comment. Therefore it is believed that the majority of the 39th Gds Mtz Rifle Div from Meiningen practiced at the Ohrdruf troop training grounds between 27 and 31 August. The units were also observed [ ]
- 25X1 [ ] in addition, identified a train [ ]
- 25X1 11. [ ] Comment. Movements between the Lossa troop training grounds and the Ohrdruf troop training grounds were reported in July 1952.
